## WORKPLACE WELLNESS PROGRAMS

### **V Wholeness**

**Private classes for your team.**

Looking to give your team a weekly, boutique experience without taking on the overhead of managing an on-site vendor? This option is for you! Companies may pre-purchase a number of private classes, only available for staff each week (or month); class content can be custom-designed ahead of time, and classes can be scheduled in afternoons or mid-mornings to maximize team happiness and work hours! A great option for employers who want to subsidize part of their employees' health experience with a private class as a gift, or for monthly team building events!

### **V Wellness**

**Corporate discounts on passes & plans for all your staff.**

For companies who want to ensure their staff are able to get in a weekly dose of fitness at a lower cost, but do not need a customized or private experience and instead utilize our existing class schedule, we introduce V Wellness Packages! Companies may pre-purchase a number of class packages at a discount and either distribute to employees as gifts, or sell to them at a partial cost to their employees. This program requires a direct min. purchase (min. based on company size) from the company for distribution or resale to their employees as desired.
